

Washington State Health Plans Report Strong Financials Through Third Quarter

By David Peel
Publisher and Editor
Washington Healthcare News

Fourteen of the largest domestic health plans in Washington State recently filed financial reports for the nine months ended September 30, 2013 and the results were strong with eight reporting higher net income than the same period in 2012 and only two reporting a net loss.

These figures demonstrate the sta-

bility of Washington State health insurers as health care reform is implemented.

Our report on page two highlights financial results and shows member months (the combined total of month ending membership for each nine month period), total revenues, net underwriting gain (loss), investment gain (loss), net income (loss) and statutory capital.

Our report on page three presents key financial statistics. When the financial figures on page two are divided by member months, a monthly average is obtained that is valuable in comparing one plan to another. These "per member per month" averages are presented in the middle section of the page.

Finally, we present statutory capital per average member in the right hand section of page three. This is essentially the amount of "cushion" on a per member basis a company has available to cover inadequate

cost estimates. Alternatively, this is the liquidating value of the company per average insured person.

As you review the numbers, keep in mind there are differences in the type of membership each plan serves.

All information in this report was obtained through publicly available reports filed with the Washington State Office of Insurance Commissioner (OIC). Information not required to be filed with the OIC (self-insured and some insured business from smaller, non-domestic carriers) is not included in this report nor is it referenced in this article.

Our next financial report will cover the twelve months ended December 31, 2013 compared to the twelve months ended December 31, 2012.

-2-

Notes:

- All information from the Washington State Office of Insurance Commissioner web site.
- 000's omitted means the last three digits of each figure is removed. For example, the number 1,000 becomes 1.
- Member Months is the combined total of each month's ending membership. For example, to get Member Months through September is added together to get a combined total.
- Net Underwriting Gain (Loss) is Net Income prior to Income taxes, Investment Gains and Losses and Miscellaneous revenues and expenses. It is a thought to be an accurate measure of the adequacy of premium revenue and can be a good predictor of future premium increases or decreases.
- Statutory Capital is an insurance company's retained earnings as defined by Washington State statute. It approximates the cash value of a company if liquidated in a short period of time.
- Amerigroup Washington is a new Medicaid plan with enrollment effective July 1, 2012.
